

Aluminium Venetians

25MM SOFTLINE + 50MM UNIQUE ALLOY & CEDAR COMBINATION

Aluminium Venetians: Combining elegant simplicity with practical versatility and function. They bring a high level of minimal and on trend style to most architectural directions. The wide range of metallics and designer colours together with a choice of a slim 25mm wide Softline or Classic 50mm wide slat provides designers, architects and decorators with a wide range of unique design solutions.

Manhattan Venetians: Our custom made Manhattan Venetians combine rich Canadian Western Red Cedar fascias and baserails with a stylish combination of premium 50mm crowned aluminium slats, in a range of designer colours with colour co-ordinated string tapes. The Cedar is offered in finishes including clear lacquer, custom stains & paints together with a standard range of classic complimentary colours. Manhattans are unique to Blinds by Peter Meyer. The look and feel of Manhattan Blinds ranges from extremely modern & urban slick to classic 'retro', depending on the installed environment.
