I am proud to introduce you to my latest ranges which include the launch of several exciting new products never before seen in Australia. Products such as XL50 pleat. Together with my wife Helen, we've built an Australian family business that's been both a pioneer and leader in the Window furnishings industry for over 30 years. We've been joined by our two sons, Simon & Damien who bring exceptional talent and industry expertise to strengthen our company. Their energy and drive have contributed much to many of the new developments and products shown in these pages. Please revisit our complete online brochure as it will be regularly updated as I bring the latest products from around the world to Australian architects, designers & decorators.
