FIT FOR PURPOSE

BMAA 'Fit for Purpose' Statement

- BMAA members' products are specifically designed to be used for the recommended purpose and are guaranteed to be supplied free of defects.
- 'Free of Defects' means that the product meets its published description and specification, and is homogeneous in appearance after allowance for minor variance that is inherent on the processes of production.
- The product has performed satisfactorily when used in its design context in all of the climatic extremes experienced throughout Australia.
- 'Satisfactorily' means with continued but gradually diminished utility over its expected life, due to the unavoidable effects of Ultra Violet Radiation and weathering, such as colour variation, strength loss and dimensional change.
- 'Expected life' is at least the period covered by warranty, provided the product is installed properly, and cleaned and maintained as recommended.
