PIVOT ARM AWNING | PROVIDES SUPERIOR AIRFLOW

Fabric is projected off the window which allows air to flow behind the Awning. Windows can be open whilst the awning is projected. A contemporary design ideal for larger windows and by using fixed side rails an extended awning effect can be achieved with a projection of up to 1500mm. This awning is a cost effective awning with superior airflow & features. Option it up with the sliding arms so you can adjust the pitch at the drop of a hat.

Specifications

Size:

Maximum Width: 5m or, Maximum Drop: 3m – up to max. 15 sq.m

Style:

Exterior Awning | Pivot Arm

Best for:

Stable in High Wind areas.. Excellent Air Flow & Circulation
