Awning | Topas II – the entry-level model

Very comfortable, reliable quality – the open Topas II awning from weinor convinces with its **attractive price-performance ratio**. It has all the important functions of modern sun protection, has a high-quality finish and provides timeless, pure design. As it is available in several different versions, Topas II provides a matching solution for almost all construction situations. Also, it can be extended with clever additional functions.

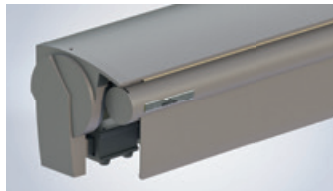

Additional quality accessories

Extended feel-good time on the patio with a high-quality light bar

Thanks to Valance Plus more heat and glare protection and greater privacy

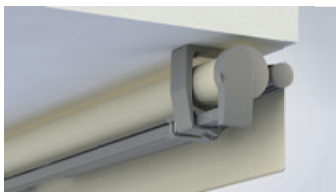

Safety shield and metal valance for better durability of the fabric and technical components
