We also bias bind the edges of our Woven Timber Blinds to give them a finish that will last the test of time. Naturally our woven timber can be made in manual cord operated, chain operated or motorised. Enhance your residential or commercial space with our selection of Le Blinde woven timber blinds.

Le Blinde, is actually the first range that Blinds by Peter Meyer started producing. Peter wanted to offer the finest timber weave ranges in the world, so he selected premium hand woven timber weaves from France from a company who had been making them since 1872. To this day, Le Blinde is installed in some of the finest homes in Australia and New Zealand.
