Virtual Showroom

After 15 years as both a retailer and an interior decorator, my wife Helen and I started manufacturing blinds in 1987. We applied this experience and knowledge to produce premium quality custom made blinds for the trade. Today, Blinds by Peter Meyer is highly regarded as one the finest manufacturers of Indoor Blinds, Curtain Tracks and Outdoor Awnings & Blinds in Australia.

The business is now run by our sons, Simon and Damien, and I've taken the role of Chairman of the Board with Helen moving into an active advisory role. This generational change has proven extremely successful with the company now strengthened with additional energy, innovation and ideas. Simon and Damien bring extensive industry experience to our business with their 60 plus years combined experience adding considerably to our expertise and customer service. With our industry background, management experience and strong team of in house specialists, we're able to understand the industry, indoor and outdoor, from both retail and manufacturing perspectives.

In recent years, we have partnered with Weinor, a German powerhouse Awning and Retractable Roof manufacturer. In 2019, we were appointed as the Silent Gliss Wholesale manufacturing partner throughout Australia and since then have been expanding our extensive range of Curtain Tracks and Rods, heavy duty Roller Blinds and technical shading solutions.

Our products are available through retailers, designers and decorators throughout Australia, New Zealand and other export markets. Our driving passion is to achieve quality in every product we manufacture, and in everything we do as a company.

Simply Romans

TIMELESS, ELEGANT AND CLASSIC STYLE

Simply Romans are custom made to the highest quality and will add classic style and presence to any décor. They offer excellent insulation and small side gaps. When raised, they form their own elegant pelmet and can be supplied with or without timber battens. Available in screen, translucent or blockout, allowing for heat, light, and privacy control with a blackout or light filtering effect. They can be used alone or with Curtains, or fitted inside or outside the window recess.

We offer an extensive selection of fabrics, weaves, colours & textures, to provide designers, architects and decorators the opportunity to create truly unique window treatments that will enhance any commercial or residential building style. Our quality & attention to detail truly sets our Simply Roman Blinds apart.

Urban Weave

STYLISH NATURAL WEAVES | CHIC DESIGN STYLES

Urban Weave is a stylish natural-look fabric range. It has been designed exclusively for Blinds by Peter Meyer in Australia and has been specified by designers and decorators for a range of homes from stylish prestige, city chic through to simple beach side retreats.

Urban Weave has superb translucent qualities and is available in Romans, Rollers & Moving Panels. We've recently added 3 new trend weave colours to the range which has become an extremely popular selection due to its natural look and texture.

The weave offers around 90% UV blockage and has great heat retention. Front battens are available on Romans and naturally all Roller Blinds, Roman Blinds and Moving Panel Blinds are suitable for motorisation.

Specifications:

Maximum Size:

Roman Blinds – 3000mm wide x 3000mm drop (joined panels).
Roller Blinds – 1800mm wide x 3000mm drop.

Styles:

Romans, Roller Blinds + Moving Panels.

Weaves + Privacy:

A stunning selection of natural weaves.
Privacy depends on fabric choice.

Thermal Properties:

99% UV Blockage. Good heat retention and reflection – about 75%

Composition: 32% Polyester/68% Polypropylene.

Motorisation:

Highly suitable. **somfy.**

A favourite of architects and designers.

Excellent window definition.

Exclusive to Blinds by Peter Meyer.

Urban

Chinois Eclectic

BAMBOO WEAVES | EXOTIC ORIENTAL

These ten exotic oriental weaves were developed & created especially for us. They can create an outstanding feature or add that finishing touch to any environment. The Chinois Eclectics collection will provide mystique and elegance, but with a difference.

Suitable for domestic and commercial applications Chinois is hand crafted using bamboo, seagrasses, jutes and other reeds and woven together using a polyester yarn to ensure durability and longevity. This product has the most stunning window definition.

"I always wanted to give the best designers a challenging weave that just said 'use me'... I've found it with this Chinois Eclectics collection"..... Peter.

Specifications:

Maximum Size:

Most weaves are 2500mm wide.

Note: some larger weaves may be heavy.

Styles:

Romans, Roll-ups, Curtains + Moving Panels.

Weaves + Privacy::

10 exotic weaves selected for their individual charm.

None of the Chinois range will give sufficient privacy for a bedroom at night although they do provide daytime privacy.

Finishes:

All natural finishes. Some can be clear lacquered or custom painted.

Thermal Properties:

Bamboo is one of nature's best insulators. UV protection will vary proportional to openness of weave as will insulation and light transmission.

Motorisation:

Highly suitable. **somfy**.

Romans most suitable.

Handwoven exotic bamboo, seagrasses, jutes and reeds.

Wide range of natural and eclectic weaves.

Exclusive to Blinds by Peter Meyer.

chinois

Le Blinde

FRENCH TIMBER WEAVES | HANDCRAFTED AND TIMELESS

Our Le Blinde French woven timber fabrics will add a timeless element to any decór. Handcrafted for over a century by France's finest woven timber craftsmen exclusively for Blinds by Peter Meyer.

These woven timbers can be made into Roman Blinds, Roll-up Blinds or Moving Panel Blinds. They can be used in their beautiful natural state or stained to your requirements or even custom painted to colour match your design palette.

We also bias bind the edges of our Woven Timber Blinds to give them a finish that will last the test of time. Naturally our woven timber can be made in manual cord operated, chain operated or motorised. Enhance your residential or commercial space with our selection of Le Blinde woven timber blinds.

Le Blinde, is actually the first range that Blinds by Peter Meyer started producing. Peter wanted to offer the finest timber weave ranges in the world, so he selected premium hand woven timber weaves from France from a company who had been making them since 1872. To this day, Le Blinde is installed in some of the finest homes in Australia and New Zealand.

Specifications:

Maximum Size:

2500mm wide x 3000mm drop. Prefinished fabrics max: 2400mm width.

Styles:

Romans, Roll-ups, Curtains + Moving Panels.

Weaves + Privacy:

9 Weaves in total. 6 Natural, 3 Le Finishe [2 Le Washe + 1 Stain], Three weaves are designed to give privacy. All others give daytime privacy while allowing you to see out. This reverses at night.

Thermal Properties:

Timber is one of nature's best insulators. UV protection will vary according to openness of weave as will insulation and light transmission.

Finishes:

Natural, clear lacquer, custom painted or stained.

Motorisation:

Highly suitable. **somfy.**

Introduced in the 1870's, enjoying a resurgence in popularity.

Available natural, custom stained or custom painted.

Exclusive to Blinds by Peter Meyer.

Le Blinde

Silk Road

RUSTIC ORIENTAL WEAVES | UNSTRUCTURED NATURAL BEAUTY

Traditionally woven rustic weaves, our Silk Road fabrics are created by blending natural harvests from oriental grasslands, woodlands, and riverbanks.

Entirely unique, Silk Road brings an unmatched stylish natural beauty to a variety of decorating styles. Each fabric, made from a diverse array of naturally harvested grasses and botanicals, is a unique work of nature's art. All Silk Road Blinds are carefully hand loomed, taking up to 3 days to weave one unique 15m fabric roll.

Naturally, all Blinds are totally individual and carefully planned so that the pattern is repeated to work in multiple Blinds, whilst ensuring the natural uniqueness inherent in each of the individual Blinds.

Silk Road is a very special collection of exotic fabrics and is totally exclusive to Blinds by Peter Meyer.

Specifications:

Styles:

Roman Blinds, manual + motorised options.

Fabrics:

16 exotic weaves selected for their individual charm and qualities

Privacy: Varies with the fabric chosen.

The beauty of this range is that you can choose to leave it beautifully sheer or simply line it with a translucent lining for privacy. If you want the Blinds to darken the room, simply line them with a blackout lining. This makes the range so versatile it can be used throughout the whole house including bedrooms!

Motorisation:

Highly suitable. **somfy**.

Warranty:

3 Years.

100% unique works of art with rustic weaves.

A 15m roll takes 3 days to weave by hand.

Exclusive to Blinds by Peter Meyer.

Silk Road

Somfy Tracks

GLYDEA® + MOVELITE MOTORISED CURTAIN TRACKS

Somfy Glydea® Ultra

Somfy's newest innovation to motorised Curtains, the Glydea® Ultra is one of the quietest Curtain motorisation solutions on the market. Glydea® Ultra is discreet with light, fluid movement and a strong traversing capacity up to 60kg. Perfect for residential and commercial projects where creating the right ambience via a simple touch of the button is important.

Somfy Movelite

An accessible and elegant Curtain motorisation alternative to Glydea® Ultra, the Movelite 35 offers significant cost savings. This entry level motor combines French style and advanced engineering. The Movelite 35 range includes three motors capable of lifting up to 35kg, available in RTS, Wirefree RTS, and WT with the option to convert to DCT motor. These motors work with Glydea® Ultra Track and accessories and are ideal for all Curtain types.

Specifications:

Medium to heavy duty.
Standard or wave headings.

Options:

Bendable in both directions. 300mm minimum radius.
Top, face or extended face fixing. Direct fixing through the track profile is also possible.
Maximum width of up to 12m.
Maximum Curtain weight of up to 60kg.

Motorisation:

Movelite motors operate up to 35kgs and Glydea® Ultra has lifting capacities of up to 35kg and 60kg.

Movelite 35

Glydea Ultra

Cutting edge Curtain Track technology.

Glydea® Ultra up to 60kg lifting capacity.

Wire-free options available with Movelite.

Glydea

Silent Gliss 2C Technology

SOUND OF SILENCE

Silence just got even quieter with the new Silent Gliss 2C technology. The 2C Gliders + 2C Rollers are manufactured using a hard component which ensures stability and a soft 'filling' to absorb and quieten operating noise. Combining the 2C Rollers & 2C Gliders with the specially coated Silent Track, allows Curtains to move smoothly and silently.

Hand + cord operated Curtain Tracks | Combine their coated Silent Track with premium **2C Gliders**.

Motorised Curtain Tracks | Combine the new coated Silent Track with premium, patented **2C Rollers**.

Quiet Mark. Silent Gliss has earned the prestigious Quiet Mark certification for their high-performance products that effectively reduce noise pollution in homes. This certification acknowledges the underestimated detrimental effects of excessive noise on health and well-being. Silent Gliss joins the forefront of the Quiet Mark movement, advocating for responsible acoustic design and striving to reduce noise pollution globally.

Specifications:

Medium to heavy duty.
Standard or wave headings.

Options:

Bendable in both directions. 80mm minimum radius on certain tracks (SG6465). Recess, top, face or extended face fixing.
Direct fixing through the track profile also possible.

Motorisation:

Maximum width of up to 25m.
Standard and powder coat colours available.

Cutting edge patented technology.

Swiss precision manufacturing expertise.

Quiet Mark certified.

Silence

Silent Gliss Motorised Curtain Tracks

5
Years Warranty

SILENT + HIGH PERFORMANCE

The SG 5600 Motorised Curtain Track provides benchmarking technology based on outstanding Swiss innovation which meets the complex demands of modern architecture. Offering unparalleled silence due to a perfect combination of the 2C heavy duty Rollers, the exclusive high-performance motor, and the specially coated Curtain Tracks. Our in-house Curtain Track bending specialists ensure motorised Tracks are professionally bent to meet unique design preferences and needs.

Specifications:

Recess

Silent Gliss Cord Drawn Curtain Tracks

SILENT + FLEXIBLE

The SG 3840 Cord Operated Curtain Track offers a touch-free solution, eliminating the need to handle the Curtain fabric directly. It is suitable for various Curtain weights, including heavier and long drop and inaccessible Curtains. The elegant design ensures smooth operation and complies with Australian child safety standards. In addition to standard and wave options, bending is also available in both directions (reverse bending).

Specifications:

Max track length of 6m.

Medium to heavy duty.

2C Glider technology.

Options:

Standard or wave headings (60mm or 80mm glider spacings available).

Ideal in a top fix situation as it looks the same from both sides with no visible fixings.

Bendable in both directions

Brackets available for top, face or extended face fixing.

Face fix via Smart Fix brackets which include unique magnetic covers to hide fixing screws.

Child safe. Complies fully with all Australian Safety Standards.

Standard and powder coat colours available.

Silent Gliss has earned the prestigious Quiet Mark certification for their high-performance products that effectively reduce noise pollution in homes

Elegant and smooth operation.

2C Glider technology for unprecedented silence.

Heavy duty, touch-free Curtain Track solution.

Cord

Silent Gliss Metropole Curtain Rod

ROUND PROFILE + DESIGNER FINIALS

An alternative to traditional Curtain Rods, the Metropole is in a class of its own. With a unique design that eliminates the need for Curtain Rings, it offers smooth and silent operation with patented 2C Gliders and 2C Rollers. Available in a 30mm round profile with standard flush and stud end caps in a variety of colours and optional custom powder coats and decorative finials.

The Silent Gliss Metropole finials are optional decorative elements that fit on at the end of the Curtain Rod. The epitome of style and elegance, they deliver the perfect finish to the Metropole. With a wide range of designer styles, colours, and finishes available, there is a finial to suit any aesthetic - whether it be minimalist design or a bold statement.

Specifications:

Hand operated.
Medium to heavy duty.
2C Glider technology

Options:

Standard or wave headings (60mm or 80mm glider spacings available).
Fitting: Ceiling or wall. Also suitable for hanger rods.
Face fix via Smart Fix brackets which include unique magnetic covers to hide fixing screws.
Matching end caps and bracket covers.
Optional decorative finials.
Bendable in both directions.
Standard and powder coat colours available.

Silent Gliss has earned the prestigious Quiet Mark certification for their high-performance products that effectively reduce noise pollution in homes

Innovative design. No need for Curtain Rings.

2C Glider and Roller technology for unprecedented silence.

Optional decorative finials.

Rod

Silent Gliss Metroflat Curtain Rod

DESIGNER FLAT CURTAIN ROD

A 36mm designer flat profile Curtain Rod Track system, engineered to work without Curtain Rings, the Metroflat is the sister product to our Metropole Curtain Rod system. It incorporates the same innovative 2C Glider technology that ensures the smoothest, most silent operation available. Fitted to the wall or ceiling, it has matching flush or stud endcaps. Metroflat is also suitable to use as cubical tracking for hanger rods.

Specifications:

Hand operated.
Medium to heavy duty.
2C Glider technology.

Options:

Standard or wave headings (60mm or 80mm glider spacings available).
Standard end or flush end cap.

Cedar Venetians

PREMIUM QUALITY NATURAL TIMBER VENETIANS

Blinds by Peter Meyer manufacture Australia's finest custom made natural Cedar Venetian Blinds. The Cedar used is sustainably harvested with three new trees being planted for every tree removed, with the grain consistent and fine. Our specially selected 4.2mm thick blades can be custom painted, stained or lacquered.

We do this in our own paint booths where we are able to control every stage of production guaranteeing quality. Assembly is by hand with every slat being meticulously checked at every stage of the process. Fingertip control, convenience and functionality is easily added to the enjoyment of Timber Venetians by incorporating Somfy's cutting edge innovation and whisper quiet motorisation technology.

Specifications:

Natural Timber Venetians:

Slats: Canadian Western Red Cedar: | 46mm + 60mm + 85mm slat width | 4.2mm slat thickness.

Finishes:

Custom painting, clear lacquer, stained + clear oiled.

Recommended Size:

Up to 4m² | larger by arrangement.

Motorisation:

Highly suitable.

Custom paint specialists. Any colour, stain or finish.

Over 35 years experience with custom paint, stains and finishes. Specialist colour matching.

Highly sustainable Cedar sources.

Premium 4.2mm thick blades.

In-house custom staining and painting.

Cedar

Habitus® Plus | Timber + Poly Venetians

DESIGNER STYLE. QUALITY POLY + TIMBER VENETIANS

Combining on-trend Poly colours with sustainably grown Basswood Timber colours, this light weight range is perfect for a modern interior décor. For a sleek contemporary look, all Timber colours are available in both 50mm and 63mm slat widths. Poly 50mm are available in an array of colours with 63mm reserved for the most popular Poly colours (Alpine White & Warm White). Plus for modern styling, Habitus Timber has an 80mm wide flat fascia and Habitus Poly has an 83mm wide Moulded fascia. Habitat Poly is available in 2700mm and the Habitus Timber can go to 3000mm wide. The 3000mm slat width means even the widest windows can be covered using this natural, lightweight Venetian.

Specifications:

Habitus® Poly:

100% Polystyrene materials. Co-extruded polymers, impervious to moisture.

Habitus® Timber:

Made from sustainably sourced Basswood.

Habitus® Timber Sizes:

Slat | 50mm + 63mm x 3mm | To 3000mm wide

Fascia | Flat | 80mm x 7 mm | To 3000mm wide

Max. Blind Size | 3000mm* 3000mm (max.4sqm)

Habitus® Poly Sizes:

Slat | 50mm + 63mm x 3.2mm | To 2700mm wide

Fascia | Moulded | 83mm x 8mm | To 2700mm wide

Max. Blind Size | 2400mm* 3000mm (max.4sqm)

Acorns:

Quality natural timber acorns are used on all Timber and Poly blinds.

Head Rail:

Standard: Premium quality, heavy duty head rail and locking system.

Finish:

Quality finish. Mitred corners on valance. No visible raw ends on the slats. All ends are painted to colour match.

Motorisation: **somfy.**

Aluminium Venetians

25MM + 50MM ALUMINIUM + UNIQUE 50MM ALLOY & CEDAR COMBINATION

Aluminium Venetians

Combining elegant simplicity with practical versatility and function. They bring a high level of minimalist and on trend style to most architectural directions. The wide range of metallics and designer colours together with a choice of a slim 25mm wide or classic 50mm wide slat provides designers, architects and decorators with a wide range of unique design solutions.

Manhattan Venetians

Our custom made Manhattan Venetians combine rich Canadian Western Red Cedar fascias and baserails with a stylish combination of premium 50mm crowned Aluminium slats, in a range of designer colours with colour co-ordinated ladder string. Optional wide textile ladder tape can also add another design flair. The Cedar is offered in finishes including clear lacquer, custom stains and paints together with a standard range of classic complimentary colours. Manhattans are unique to Blinds by Peter Meyer.

The look and feel of Manhattan Blinds ranges from extremely modern & urban slick to classic 'retro', depending on the installed environment.

Specifications:

Skylight Rollers

TOTAL SUN CONTROL

We specialise in custom high quality Skylight Roller Blind systems for both domestic and commercial use, providing total sun control while assisting building insulation. Our options include sun and light filtering to complete blackout, with manual or motorised operation available.

Skylight Blinds are essential in the hotter months in Australia as they can effectively cut out excess glare, light and heat from the sun. In Winter, Skylight Blinds also help keep warmth in. Our expert staff can advise you on the most appropriate system for your needs.

Skylight

Sottezza Skylight + LED

UNDERMOUNTED SKYLIGHT SYSTEM

This Undermount Skylight Roof system is designed to mount flush under a sloping or flat roof and can be used in large scale skylight windows providing the ultimate interior heat protection. Sizes up to 6m width and 5m projection are possible. An amazing solution for the most beautifully designed architectural skylights and glass roofs. Running on a minimum of 0°-45° pitch allows both designer profiles, Sottezza Pure + Sottezza Originale to cover large projections.

The OptiStretch technology makes for taught fabric without the traditional light gaps of other solutions. By far one of the most advanced Undermount Roof systems on the market, German design and quality with integrated LED lights, Sottezza showcases Weinor's world leading German technology.

VertiTex II

EXTERIOR ROLLER BLINDS. THE ONLY 75MM CASSETTE. SMALL & DISCREET.

This stylish Vertical Roller Blind range features tiny 75mm and 92mm cassettes in Cable & Channel versions that can span a massive 6m width with up to a 4m drop. The 92mm and 112mm Zip version enables blinds to span up to 6m width with drops up to 3m.

Available in 2 sleek architectural profiles, square + round, adapting unobtrusively to all building facades. The patented Weinor Opti-Flow System® ensures the fabric position is always perfect. VertiTex II avoids bulky cassette housings on patios, windows and balconies. Unique cantilever guide rail mounts allow Blind installation up to 2.5m wide without cassette brackets.

For windows, VertiTex II is a suitable alternative to external shading systems or Roller Shutters and can be used inside and outside. A wide range of fabric types will allow you to filter light and privacy to suit your needs. For every application and facade, VertiTex II can provide the solution. VertiTex II throughout its wide range of closures & profiles is small, discreet and so versatile.

Semina Life + LED

FOLDING ARM AWNING | FULL CASSETTE | DESIGN EXCELLENCE

Semina Life is a very versatile Full Cassette Awning combining a crisp stainless steel aesthetic with Weinor's cutting edge technology and German precision build quality. With an exceptional price-performance ratio, the Semina Life is a serious alternative to a semi-cassette. The elegant design will enhance residential or commercial architectural styles from modern to traditional.

Awarded Europe's prestigious Red Dot for design, innovation, excellence & build quality. The innovative styling's unique, modern cassette with aluminium rings create a visual highlight that enhances the combination of frame color + fabric design. Now evolved as a timeless design classic.

Features include Weinor's renowned Longlife Arm, highly functional cassette with muffled feed rollers that ensure maximum protection from the elements with almost no Awning wear. Options include integrated LED Lights, Valance Plus and integrated Tempura Quadra Heaters to extend outdoor living hours. Semina Life is Weinor's most stylish, cost effective and feature rich Awning.

Cassita II + Cassita II LED

FOLDING ARM AWNING | FULL CASSETTE

With its slim, purist design, the Cassita II is in perfect harmony with modern home interior trends. Despite its ultra-slim design, the cassette is packed with a whole range of technological innovations. The minimalist look of the two-point installation system underlines the contemporary design. Its dimensions make the Cassita II the ideal sun protection system for most patio sizes. Cutting edge design combined with German precision and technology has seen the Cassita II and Cassita II LED awnings win a range of European product & design awards.

The clever two-point suspension adds to the Cassita II's stylish and minimal appearance. The fabric and frame are well protected from wind and rain in the 12cm flat oval cassette. Available width to 5.5m and with a maximum projection of 3m. The Cassita II LED model extends the hours of outdoor enjoyment on the patio. I + K + N 2000

FOLDING ARM AWNING | FULL CASSETTE + NICHE FLUSH FACADE MOUNT

The IK2000 is Weinor's tried and tested classic Cassette Awning range. Available as an I2000 without back plate for level building facades or as the K2000 with back plate for uneven bases the sturdy Weinor Awning with back bar support system can be used almost anywhere. As the detail on the front rail and end caps suggest, the IK2000 leans toward a more traditional style.

The highly functional N2000 is an Awning designed especially for niche fixing. With its unique flat front rail the Awning disappears almost completely into the facade. The N2000 offers simple, minimalist style with crisp flush face mount.

Specifications:

Plaza Viva + VertiTex II

THE ULTIMATE PATIO ROOF + OUTDOOR ROLLER COMBINATION

Plaza Viva

Plaza Viva is an incredibly wind-resistant Retractable Patio Roof that can provide up to 6m x 5m width and projection. It is ideal for exteriors with insufficient load-bearing capacity for a Folding Arm Awning. Technical innovations such as the optional adjustable Telescopic Post, the OptiStretch version, integrated LED Lights and gear handle operated Valance Plus leave almost nothing to be desired.

Plaza Viva + VertiTex II

The Plaza Viva + VertiTex II Exterior Roller Blind provides exceptional sun, rain, wind, and glare protection, ensuring high levels of privacy. The slimline Patio Roof complements the Roller's minimal cassette sizes, giving it a seamless and architectural appearance. Built using state-of-the-art technology and the highest quality German materials and componentry.

Sottezza Originale LED

ROUND CONSERVATORY AWNINGS | UNDERMOUNTED

The Sottezza Originale combines classic elegance with advanced functionality, making it a versatile choice for various architectural styles. Its timeless round design enhances the sophistication of any outdoor area, while maintaining compatibility with most patio roof types. Built with an aluminium rope drum for strength and a flat retaining bracket for easy installation and maintenance, the Sottezza Originale ensures long-lasting performance. The integrated LED Spotlights in the cassette not only illuminate the space but also enhance its overall aesthetic.

The Originale features the OptiStretch system to avoid fabric sagging, a trusted rope tensioning system for precise fabric placement, and a new flush front profile to reduce light gaps. These elements work together to offer a refined and durable shading solution that blends seamlessly with traditional outdoor designs.

Integrated LED lighting in the cassette.

OptiStretch taut fabric technology.

Sottezza Originale

Sottezza Pure LED

CUBIC CONSERVATORY AWNINGS | UNDERMOUNTED

The Sottezza Pure is a state-of-the-art Conservatory Roof Awning designed for modern outdoor spaces. Featuring a sleek cubic design, it seamlessly integrates with nearly all rectangular patio roofs, regardless of the material. Like the Originale, this model boasts an aluminium rope drum for exceptional durability and a custom-designed flat retaining bracket for straightforward installation and maintenance. Enhanced by integrated LED Spotlights within the cassette, the Sottezza Pure adds both aesthetic appeal and functionality to any setting.

Key features include the OptiStretch system to prevent hanging fabric edges, a precise rope tensioning system for accurate fabric positioning, and a new flush front profile to minimise light gaps. These cutting-edge technologies ensure a stylish, reliable, and efficient shading solution.

Paravento

SIDE SCREEN PANELS | PRIVACY + WIND PROTECTION

Enjoy your outdoor living with complete privacy using the Paravento Side Screen. This stylish and practical solution retracts into an elegant cassette when not in use. It offers maximum protection from neighbours, prying eyes, and unpleasant winds, making it the perfect complement to Awnings and textile Patio Roofs.

Specifications: Height to 2.5m | Width to 4m | Max. fabric M: 8 m²

Ambience

CUSTOM LED LIGHTING + INSTANT WARMTH

LED + LED RGB Strip

LED Light Bar:

Enhance your patio and extend outdoor living with a Weinor LED Light Bar. Compatible with a Weinor Awning or installed separately, it provides beautiful ambient lighting. Control it via hard-wired switch or remote. With a lifespan of about 30,000 hours, it saves energy and resources.

LED RGB Strip:

The Weinor RGB LED Light Strip offers versatile alfresco lighting with up to 48 colours and 3 whites. Weatherproof and installable almost anywhere on your patio, it creates striking light effects and moods. Customise your outdoor lighting for different occasions and enjoy a unique outdoor experience.

Tempura + Tempura Quadra

Weinor's high-tech infrared heaters let you enjoy your outdoor deck or patio for more evening hours and months of the year. With energy-saving technology, they reach full radiant temperature in just 2 seconds, eliminating any wait for warmth.

The award-winning Tempura Quadra features advanced radiation technology, filtering up to 99% of visible light and significantly reducing glare. The heaters can be controlled via a wall switch or controlled and dimmed with a Somfy remote.

5
Years Warranty

Excellent privacy + wind protection.

LED energy saving technology.

Weinor My Collections 2 | Ranges.

THE WORLD'S FINEST SELECTION OF PREMIUM QUALITY EXTERIOR DESIGNER FABRICS.

5
Years Warranty

My Collection 2 | Premium designer colour ranges.

There are 171 exquisite Awning fabrics in My Collection 2, featuring the latest structures and colours. With this collection, Weinor has embraced the growing trend of transforming patios into sophisticated outdoor living spaces. With premium acrylic and polyester fabrics, Weinor is eagerly embracing this challenge by offering high-quality outdoor textiles that meet elevated aesthetic standards.

Modern Basics Blue | Sustainable PET Recycled range.

These Awning fabrics are produced sustainably. Here, upcycling means approx. 60 % less energy consumption and approx. 45 % less CO2 emissions through PET recycling + approx. 90 % less water consumption thanks to spinneret dyeing. For us it means taking responsibility.

Made with 85% recycled Polyester

Weinor Fabric Qualities

Our colour brilliance from Solution Dyeing

The manufacturing process determines whether a fabric keeps its brilliant colour for many years to come. Weinor's fabrics are solution dyed. This means that the colour pigment is stored in the fibres during the spinning process. They are then spun into a yarn. The finished yarn is therefore fully saturated with dye (carrot). Weinor's acrylic fabrics have been on the market for decades and are the best possible proof that colours can remain brilliant for a very long time.

The traditional method is to spin the yarn first and then dye it. We call this yarn/piece dyeing (radishes). With this process, bleaching of the colour cannot be ruled out. Weinor fabrics stand out from products made by other manufacturers where only the finished yarn is dyed. Weinor fabrics ensure superior colour fastness.

The woven fabrics that we engineer meet stringent quality requirements and undergo extensive laboratory testing during the production process. Using recognised measurement methods, the grammage, maximum tensile strength, maximum tension force, tear propagation force, water pressure resistance, hydrophobicity, light fastness, weathering fastness, solar energy performance and other properties are subjected to rigid testing.

Fabric Certifications

Tried & tested certified quality

OEKO-TEX

Certified in accordance with OEKO-TEX standard 100 and comply with REACH, the European chemicals directive.

UPF 50+

Weinor fabric's maximum value of UPF 50+ offer the best possible UV radiation protection.

Teflon Extreme

Dirt-repellance impregnation of fabric with Teflon woven tissue protection and nano technology.

Weinor Awning Fabrics

My Collections 2 + Modern Basics Blue® | Sustainable

My Collection 2 features an extensive range of 171 awning fabrics combining optimised designs from previous collections with groundbreaking weaves & patterns, including a variety of tried and tested classics, along with 12 patterns exclusive to Weinor. The Modern Basics Blue® range is a highly innovative & sustainable recycled PET fabric.

Weinor fabrics are made from polyester or acrylic. High-quality pigments are stored in each individual fibre. The result; especially good colour fastness and high UV resistance. Teflon fabric coating and state-of-the-art nano technology, ensures the surface is resistant to oil, water, dirt and prevents rot.

Suitability:

Folding Arm Awnings | Open | Semi | Full Cassette
WGM Top | Over Roof | Conservatory Awnings
Sottezza II Originale + Pure | Undermount
Plaza Viva | Retractable Roof
VertiTex II Exterior Rollers | Cable

Weinor Vertical Sun Fabrics

Screens by Weinor

4 perfect privacy and sun protections for windows, patios and balconies. Four high quality fabrics.

STARSCREEN

Textile woven fabric for a homely atmosphere

This spinneret dyed polyester fabric has a very natural textile look and feel. Its open weave increases the light transmission. This ensures an extremely homely character. A superb woven fabric.

Suitability:

VertiTex Exterior Rollers | Cable | Channel | Zip
Valance Plus

FIBERGLASS SCREEN

Robust fabric for vertical sun protection

The fabric is made of coated fibreglass yarns and is therefore extremely durable and easy to keep clean.

Suitability:

VertiTex Exterior Rollers | Cable | Channel | Zip
Valance Plus

SOLTIS 86 + SOLTIS 92

Ventilated sun protection

The Soltis® high-tech fabric is extremely air-permeable thanks to its many micro-pores. When used on vertical awnings, it therefore provides for a healthy climate. Soltis® reflects up to 97 percent of all solar rays and therefore provides perfect sun protection. The Soltis® qualities differ from each other in terms of their structure and size, as well as their pore configuration – thus allowing for a higher or lower amount of UV, light and air permeability.

Suitability:

VertiTex Exterior Rollers | Cable | Channel
Folding Arm Awnings | To 2400mm Projection
Valance Plus
WGM Top | Over Roof | Conservatory Awnings
Sottezza II Originale + Pure | Undermount
Paravento | Side Panel Blinds

PERGONA

Pergona Classic

The Weinor Pergona Classic PVC-coated fabric guides rainwater away reliably. These fabrics give a blackout effect and are therefore suitable for effective shading. Dirty marks cannot be seen from underneath either.

Pergona Translucent

The special feature of Pergona Translucent is its high light transmission of up to 21 %. The support fabric allows natural light through and provides optimal protection against rain and UV rays. The fabric is extremely hard-wearing, waterproof and light transmitting at the same time.

Suitability:

Pergotex II | Only

Weinor Innovation Excellence

AWARD WINNING DESIGN, INNOVATION & TECHNOLOGIES. CRAFTED WITH GERMAN PRECISION.

LongLife Arm Quiet Operation

Unique LongLife arms with a 10 year guarantee. High quality construction and tested to 100,000 cycles.

Wind Lock Safety Device

Unique Wind Lock technology is designed to stop Awnings lifting up in high wind gusts to eliminate any possible damage above.

LED Lighting 30,000 Hours

Weinor LED's are highly energy efficient, providing 30,000 hours of warm lighting with minimal energy consumption.

Weinor OptiFlow® System Smallest Cassettes

OptiFlow® patented technology enables Weinor to offer very wide blinds in the smallest size cassettes on the market.

Integrated Drainage Water Management

Every Weinor Awning comes with a rain management solution incorporated to channel rain water off to the sides.

Zip Technology Tight Side Capture

Zip technology holds the fabric secure on the side for superior wind resistance & ensures no light gaps.

Indent Cable Guide Unique Weinor Solution

Perfectly suited when end fitting a cable guide is not possible for certain installations.

Large Commercial Solutions Large Area Awnings

Our side-by-side systems enable you to cover larger areas, both residential and commercial.

Multi Section Units Large Cover Flexibility

Opal Multisection units allow for easier install of larger Awnings and widths up to 12m wide.

Valance Plus Vertical Screen Integration

Motorised or manual solutions for Vertical Screen's integrated into the Awning's front profile.

A FEW OF THE MANY INNOVATIONS THAT SET WEINOR APART IN THE EXTERIOR RANGE MARKET.

OptiStretch Superior Wind Resistance

Clamps the fabric on all 4 sides for superior wind stability and to ensure that there are no light or gaps.

Stretch Cost Effective

Clamps the fabric on 2 sides and offers more economical solutions for Conservatory Awnings.

Bracket Options Multiple Bracket Solutions

Weinor and PMB can custom design and fabricate bracket solutions for tricky installs including rafter fits or stand-off brackets.

Custom Brackets All Fixings Covered

Weinor have all bracket options covered from standard wall fix to top fix as well as rafter fit options available.

Spreader Plates Colour Matched

Weinor offer a standard range of spreader plates for all their Awnings. Custom powder coated to match their standard 56 colours.

Telescopic Post Rapid Water Removal

Unique Telescopic Post allows for large volumes of water to be easily and quickly drained off to one side. Exclusive to Plaza Viva.

Design Awards Innovation & Design

Weinor the company and their products are multi-award winners for excellence in Design Innovation and Technology.

My Collections 2 Colours Retain Brilliance

Over 171 Solution Dyed Acrylics and Polyester fabrics to suit any need. Superior colour fastness. High UV resistance.

Screens by Weinor Perfect For Privacy & Sun

Suitable for VertiTex II, WGM Top or Valance Plus options.

56 Powdercoat Colours Exceptional Colour Range

Weinor offer the largest standard powdercoat range available on the market with access to over 210 colours.

Solare Teknica

AWNING + HEADBOX OPTIONS | VERSATILITY. FOUR PRODUCTS IN ONE

Solare Teknica Series has been designed by Australians specifically for the Australian climate, with design, styling, and quality top-of-mind. The modern and contemporary Solare Teknica series is suited to all exterior facades. 4 matching Awning styles allow you to personalise the perfect Awning to suit your external shading requirements. Mix and match the Awning styles whilst still maintaining a common appearance and design on your home.

Solare Teknica | T1000

EXTERIOR ROLLER | STRAIGHT DROP

Solare Teknica Series has been designed by Australians specifically for the Australian climate, with design, styling, and quality top-of-mind. The modern and contemporary Solare Teknica series is suited to all exterior buildings both residential and commercial.

The Solare Teknica 1000 Straight Drop provides your home with entry level UV protection and is very simple to use. Sleek and simple with a modern aesthetic, suitable for balconies where you are able to strap the Blind to the railings or down to the ground. This Blind is designed to be either fully up or strapped in the down position.

Specifications:

Size:

Maximum Width: 5m or, Maximum Drop: 4m – up to max. 15m²

Style:

Exterior Roller | Straight Drop

Best for:

Sun + UV protection, use where channels are not suitable.

Suitability:

Windows + Balconies + Alfresco Dining

Open Rollers:

Modern industrial look is offered by exposing the components.

Eliminating the aluminium head box profiles, the price is significantly reduced.

Headbox is optional.

Engineered for Australian conditions and independently tested.

T1000

Solare Teknica | T2000

EXTERIOR ROLLER | CABLE GUIDE

Sleek and simple with a modern aesthetic, suitable for most applications, this is our most popular exterior screen Blind. Use with or without a head box, the superior quality stainless steel cable guides allow the Blind to be raised and lowered without the Blind blowing in the breeze. Designed to be either up or down, the optional locking bolts hold the fabric taut and minimises bottom rail movement. Free moving cable guide end caps allow floating in and out of the bottom rail and the Awning operates smoothly without putting pressure on the cable. The T2000 a very versatile Outdoor Roller, that enhances any architectural style.

Specifications:

Size:

Maximum Width: 5m or, Maximum Drop: 4m – up to max. 15m²

Style:

Exterior Roller | Cable Guide

Best for:

Sun + UV protection, use where channels are not suitable.

Suitability:

Windows + balconies + alfresco dining.

High Quality Cables:

Cables are high tensile 2.5mm 316 grade marine stainless steel, making them perfect for coastal applications.

T2000

Solare Teknica | T5000

EXTERIOR ROLLER | SIDE RETENTION ZIP

With head box and side channel as standard, the fabric is tensioned by utilising a floating channel, located within the special two piece side channel, eliminating the possibility of fabric “blow outs” or light gaps. As the fabric is held taught between the left and right channels, this system is ideal for enclosing courtyards, patios or balconies; essentially adding an extra room to the home. The Solare Teknica 5000 is a great way to shelter courtyards and other outdoor spaces from wind, insects and UV rays. Hand operation is also available with Lite Rise Spring Balance system that allows you to easily operate by hand.

Specifications:

Size:

Maximum Width: 5m or, Maximum Drop: 4m – up to max. 16m²

Style:

Exterior Roller | (SRS) Side Retention System | Zip System

Best for:

More suitable in high wind areas.

Sun + UV protection. Light & heat control. Insect Resistant. Enclosing balcony + creating privacy.

Suitability:

Windows + balconies + alfresco dining.

Locking Bolts:

The channel end caps essentially push the floating channel up 15mm allowing the locking bolt to insert into the base of the channel.

Options:

PIVOT ARM AWNING | PROVIDES SUPERIOR AIRFLOW

Fabric is projected off the window which allows air to flow behind the Awning. Windows can be open whilst the Awning is projected. A contemporary design ideal for larger windows and by using fixed side rails an extended Awning effect can be achieved with a projection of up to 1500mm. This Awning is a cost effective Awning with superior airflow & features. Option it up with the sliding arms so you can adjust the pitch at the drop of a hat.

Specifications:

Size:

Maximum Width: 5m or, Maximum Drop: 3m – up to max. 15m²

Style:

Exterior Awning | Pivot Arm

Best for:

Stable in High Wind areas.. Excellent air flow + circulation.

Suitability:

Windows + balconies.

Heavy Duty Pivot Arm:

The heavy duty spring incorporated in the Pivot Arms provides excellent fabric tension even with awning widths up to 5 metres. The arms are a modern anodised finish & complement the standard Silver Pearl hardware.

Exterior Shutters

PREMIUM POWDER COATED ALUMINIUM SHUTTERS

Our premium Exterior Shutter range combines cutting edge engineering with beautiful design. This powdercoated Aluminium Shutter is like no other, providing unprecedented durability, flexibility and strength. They will weather the harshest elements. Elegant and minimalist, this is the most streamlined Shutter in the market. It's two-part frame hides all screws so there are no visible fixings & the internal blade rotation provide the ultimate clean look.

We also offer a cost effective range of Aluminium Shutters that combine beauty, durability and versatility. These Shutters can be ordered to suit most window sizes and will enable you to maximise and utilise your indoor and outdoor spaces.

Ultimate clean minimal look. No visible fixings.

Premium Aluminium with powdercoated finish.

Strong & durable to weather the harshest elements.

Shutters

Exterior Venetians

EXTERIOR METAL VENETIANS | CRISP ARCHITECTURAL LOOK

The most effective form of external shading is achieved through operable and retractable blades. The most commonly used 80mm blade is fully variable, providing exterior views and natural light whilst blocking all direct sunlight. With up to 85% of solar gain eliminated, cooling costs are greatly reduced (internal temperatures can fall up to 10°C), clear glass can be used in place of expensive tinted glass and there is less need for artificial lighting. The result is a healthier work or living environment.

Blinds by Peter Meyer use only the highest quality European systems to cover every Exterior Venetian Blind situation. We specialise in both domestic and commercial applications and can assist you with advice on all of your External Venetian requirements.

Total control over sun and privacy.

Significant energy savings.

Stunning crisp street presence.

Somfy Home Automation

TOTAL CONTROL WITH YOUR SMARTPHONE AT HOME OR AWAY

Controlling all your blinds & awnings. Never been simpler.

Easily manage your smart home anywhere or anytime with TaHoma. Use the TaHoma Switch smart control, the TaHoma app, or voice commands.

The TaHoma Switch streamlines control with two customisable scene launcher buttons, simplifying access to your home devices. Tailor each button to create scenes that align with your daily routines. For instance, a quick tap on the "Going Out" scene button as you rush out in the morning.

Compatible with a wide range of Somfy and partner products, including gates, alarms, and heating systems, the TaHoma Switch ensures seamless integration. Partnering with major brands like Phillips and Clipsall, Somfy provides a tailored experience based on your wants.
