Somfy Controls and Sensors

As a world leader in automation systems, Somfy offer a range of control solutions to meet any requirement in the automation of window furnishings in the home or office. Somfy's unique and stylish range of remote controls provides users with the ultimate in convenience – all at the touch of a button.

In conjunction with the broad range of Somfy sensors, you have the ability to create energy efficient, convenient environments to improve the well-being of occupants in all living spaces.

Warranty

Somfy provides a 5 year warranty on all products. Somfy's extensive quality testing procedures ensure all motors, controls and sensors conform to national and international safety and electrical standards.

Somfy... A Sense for Motion

Remote Controls

Telis RTS remote control

1 or 5 Channel

Allows control of one motor or a group of motors per channel.

Telis Mod/Var RTS remote control with scroll wheel

1 or 5 Channel

Revolutionary scroll wheel functionality – specific for venetian blinds – for precise adjustment of horizontal blind slats.

Situio RTS wall mounted remote control

1 Channel

Wireless wall mounted transmitter to control one motor or a group of motors.

Touch Panel Controller

Centrally control all your Somfy automated products with the simple push of a button.

Telis Soliris RTS remote control with sun sensor

1 or 5 Channel

Turn your sun sensor on and off with the touch of a button.

Telis Mod/Var Soliris RTS remote control with scroll wheel and sun / wind functions

1 Channel

Turn your sun sensor on and off with the touch of a button plus precise adjustment of horizontal blind slats.

Telis 16 RTS remote control

16 Channel

Unique display screen allows for easy operation of up to 16 individual motors or 16 groups of motors.

Telis 6 Chronis RTS remote control with timer

6 Channel

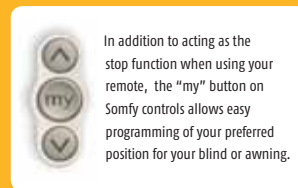

Allows programming of up to 6 timed events per day, plus the benefits of a 6 channel Somfy remote.

Keygo RTS remote control

4 Channel

Slim keyring size remote control for individual or group motor control.

In addition to acting as the stop function when using your remote, the "my" button on Somfy controls allows easy programming of your preferred position for your blind or awning.

KeyPad

2 Channel

Radio keypad with security function for external use.

Centralis RTS wall mounted remote control

1 Channel

Wall mounted transmitter to control one motor or a group of motors.

Available colours:

- White: Simple, straight forward and functional.
- Silver: Fits naturally within a contemporary decor.
- Blue: Stylish design for outdoor use.
- Black: For high end sophisticated decor.

Somfy... A Sense for Motion

Sensors

Eolis 3D Wirefree RTS motion sensor

Automatically retracts a folding arm awning based on wind vibrations. Designed specifically for use on a folding arm awning.

Eolis RTS wind sensor

Automatically retracts a sunscreen or awning based on wind speed.

Sunis Wirefree RTS sun sensor

Automatically extends a sunscreen or awning based on a preset amount of sunlight.

Soliris RTS sun & wind sensor

Automatically adjusts the position of a sunscreen or awning based on wind speed and / or a preset amount of sunlight.

Sunis Indoor RTS Wirefree sensor

Automatically adjusts the position of an external blind or roller shutter based on a preset amount of sunlight.

ThermoSunis Indoor RTS Wirefree sensor

Automatically adjusts the position of an internal blind, roller shutter or venetian based on a preset amount of sunlight and inside temperature.

Rain sensor

Automatically retracts an awning or closes a roof in the event of rain.

Radio Technology Somfy®

RTS

Radio Technology Somfy (RTS) is Somfy's patented control protocol for the operation of radio motors. With a range of 200 metres in open space or up to 20 metres through two reinforced concrete walls, Somfy RTS motors and controls are the ideal solution for automation within your home.

Somfy contributes to improving well-being and harmony in all living spaces.
