

Solare Teknica | T2000

EXTERIOR ROLLER | CABLE GUIDE

Sleek and simple with a modern aesthetic, suitable for most applications, this is our most popular exterior screen blind. Use with or without a head box, the superior quality stainless steel cable guides allow the blind to be raised and lowered without the blind blowing in the breeze. Designed to be either up or down, the optional locking bolts hold the fabric taut and minimises bottom rail movement. Free moving cable guide end caps allow floating in and out of the bottom rail and the awning operates smoothly without putting pressure on the cable. The T2000 a very versatile exterior roller, that enhances any architectural style.
