

Solare Teknica | T5550

MOTORISED AUTO AWNING. AWARD WINNING PIVOT GLIDE INNOVATION.

The Solare Teknica T5550 Motorised Auto Awning revolutionises the iconic Auto Spring Awning, a practical shading solution beloved in Australia for decades. Featuring the award-winning Pivot Glide technology, it brings motorised convenience to a traditionally manual design. With pivot arms as short as 500mm and marine-grade stainless steel side rails, the T5550 delivers seamless operation and sleek functionality, even in compact spaces. Designed to project fabric off windows, it allows them to remain open while enhancing airflow and stability, offering a modern, intuitive solution for shading and ventilation
